## **PRESS RELEASE**

Mr. Ralph Girkins, President of Universal Tube & Rollform Equipment, USA is pleased to announce the opening of another division company to serve the Tube, Pipe and Rollform Industry more efficiently.

The new company Universal Controls Group USA, specializes in Mill Control Systems. They have built multi motor drive systems exceeding 1,000 H.P. The drives are self contained eliminating the need for multi-cabinet systems, and have drastically reduced installation costs.

Controls Group President, Mr. Ken Metzger has developed a revolutionary Closed Loop Length Control System to exceed today's standards in the Tube and Rollforming Industry. The new system utilizes standard purchased parts, a very cost efficient and accurate solution. Universal Controls Group has installed 6 systems in the past few months with many more to come. Our goal is to become the standard for die accelerators and length control systems world- wide.

Universal Tube & Rollform, formed in 1984 has been a major supplier of used and rebuilt Tube Mills and Rollformers. The Company utilizes 125,000 square feet of used Tube Mills and Rollformers. We have the ability to rebuild, retrofit and test run the machinery on their floor prior to shipping. We have been exporting to many companies for years.

This is a very exciting opportunity for the company and we welcome all inquires.
