OT-41 controller

The Otinus CNC controller features a convenient, intuitive menu. Its software automatically calculates bending angles, and the large color touchscreen is easy to read from any angle. The controller can store up to 2,000 programs, each with up to 30 steps.

Delem DA-58T controller

- Single-click program generation
- Advanced operator guidance based on algorithms
- Advanced, graphic simulation of bending sequences
- Operator prompts included
- Algorithms to shorten the production process
- Automatic crowning
- High-resolution TFT touch screen
- USB interface
